

1000 Registered At Technology For Draft

**Service Postponed
Till July 1, Advanced
R O T C Exempted**

Answering the country's draft call, 998 Technology men registered Wednesday in Room 7-142 for future military training. It was estimated that 250 people an hour were handled by the draft facilities during the rush hours.

The process was speeded up by providing preliminary forms which were filled out by the draftees before reaching the registrar.

Estimates Wrong

All persons between the ages of twenty-one and thirty-six were required to register with certain persons excepted. Nevertheless, the registration did not approach earlier estimates of the number to report for the draft.

Students studying advanced R.O.T.C. training and those students and faculty members holding commissions in the various Army or Navy Reserves were exempted from registering. National Guardsmen were also excepted in the draft call.

Service Deferred

Although students registered Wednesday, their military service, if drafted, may be deferred till July 1. Foreign students who have not declared their intentions to become citizens are ineligible for service.

Motion For Shell Tabled Yesterday

**Inst. Comm. Discusses
Student Fund Drive,
Grants A. C. S. Respite**

A \$1,600 appropriation for the purchase of a varsity 150 pound shell was tabled at the meeting of the Institute Committee yesterday afternoon in Litchfield Lounge. The Elections Committee also announced the members and alternates elected to the Freshman Council.

There was discussion of a possible drive by the International Student Service Fund to raise money for the assistance of foreign students. Consideration of the issue was postponed pending a report by the committee, because of precedent that the T.C.A. drive, and the Community Fund drive are the only ones permitted on the campus. This year's T.C.A. drive was approved at the meeting.

Alpha Chi Sigma Granted Respite

Alpha Chi Sigma, honorary chemical society was granted a respite of one year to make some agreement with the national organization to allow it to be represented on the Institute Committee.

Willard S. Mott, '41, was chosen to head the Senior Ring Committee. Other members of the committee are Harold E. Dato, '41, Jerome T. Coe, '42, and Robert S. Reebe, '43.

Radio Society Beginning Classes To Teach Code

The M.I.T. Radio Society has begun code classes for all members and prospective members of the organization who plan to use the station equipment.

Classes for beginners are held from 7:30 to 8:30 P.M. on Monday and Wednesday evenings in Room 7-006. Classes for those reading more than 10 words per minute are held in the same room from 7:00 to 7:30 P.M. Mondays and Wednesdays. Equipment borrowed from the Military Science department is being used for instruction.

Plane To Take Students To Tech Football Opener

Four ardent Technology fans, so interested in the first intercollegiate football fray of the Beavers that they don't want to miss even the preliminary warm-ups of the team, plan to go by air to the game, at a cruising speed of 140 m.p.h.

Their pilot, Arthur Goldberg, trained by the C.A.A., hopes to leave the East Boston Airport tomorrow, at 1 P.M. and expects to arrive in the local Hyannis airport at approximately 1:30, allowing an hour leeway for finding the place after he lands.

Dramashop Plans Series Of Short Plays For Fall

**First Presentation Set
For Saturday Evening
October 26, In 1-190**

A series of one act plays to be presented on alternate weeks starting Saturday October 26, will replace the annual fall production of the Dramashop, according to an official announcement received last night.

Three one-act plays, entitled "The Mask", "Simple Soul", and "Eugenically Speaking", are to be presented at the first playing of the series to be held in Room 2-190, Saturday, October 26, at 8:15 P.M.

"Sex and Murder"

"The Mask", is a short drama of "sex and murder" according to Burton S. Eddy, '42, and will be the first presentation of the evening. "Simple Soul", second of the plays is the dramatic presentation of the story of a motor-car accident.

"Eugenically Speaking", the final presentation of the first evening, depicts the troubles of a wealthy young woman searching for a eugenically perfect husband among her gentlemen friends.

Tickets on Sale Today

A limited number of tickets will go on sale today in the Dramashop office in Room 2-178, and may also be purchased from members of the Dramashop. The price has been set at thirty-five cents for each evening's presentation.

The cast of the "The Mask" includes: Mary E. Guinan, '44, as Vassie; Allen Michaels, '44, as her husband; and James Weaver, '44, as Willie. In "Simple Soul", Alfred J. Schaeffer, '44, will play the part of Theo Dudsworth; Eloise Humez, '42, is to play his daughter, Cecelia Dudsworth; Harold Miller, '44, will appear as Quirk; Harvey S. Freeman, '43, is to appear as Mr. Taylor.

In "Eugenically Speaking", Una is to be played by Ann E. Humphrey, (Continued on Page 4)

Twin Freshmen Camera Shy, Aspire To Voo Doo Board

Technology's identical twin freshmen, George and Raymond Maritz are just as anxious to see their picture in print as Greta Garbo, The Tech's photographer found out to his sorrow.

The publicity shyness of the twins is tied up with their coming to the Institute. They both tried out for a regional scholarship and came out first with nearly identical scores. The puzzled judges finally split the \$600 stipend between the two. This story appeared in the press throughout the country.

"The first thing that struck us when we came to M.I.T. was its immense size," claimed Technology's twin freshmen Raymond and George Maritz when interviewed recently by The Tech.

Murdock To Head Peace Federation

**Fills Place Left By
Recent Resignation
Of Fred Kunreuther**

John B. Murdock, '41, president of the Senior Class and chairman of the Institute Committee, was unanimously chosen president of the Peace Federation at a meeting at 5:00 P.M. Wednesday in Litchfield Lounge.

In his acceptance talk, Murdock said that he couldn't promise an active program, but that, instead of allowing the organization to die, he would accept the position.

The Federation, its offices empty because of five recent resignations, elected two new leaders including Murdock at the ten-minute meeting. E. Robert Marshall, '41, was elected vice-president. Richard A. Van Tuyl, '41, remains as secretary, and Robert J. Fay moves up from the executive committee to the treasurer's position.

The retiring officers include Fredrick Kunreuther, '41, president; Wil-

(Continued on Page 4)

Tickets For Grid Game On Sale In Main Lobby

Student tickets for the Beaver-Hyannis grid battle tomorrow will be on sale in the Main Lobby of the Institute from 11:00 A.M. to 2:00 P.M. today. The price to Tech men now is thirty-five cents, while tickets purchased at Hyannis will cost fifty cents.

After 2:00 P.M. today and also on Saturday morning, students may buy tickets at the M.I.T.A.A. office in Walker Memorial.

Frosh Councilmen Elected Tuesday

The election of fifty men to the Freshman Council was announced by the elections committee at the Institute Committee meeting yesterday afternoon. The men were selected by their sections in an election last Tuesday. The representatives and alternates by sections are as follows:

Sec. 1—William S. Stewart, George N. Ziegler; Sec. 2, Robert E. Benedict, Carl C. Roden; Sec. 3, Donald B. Philips, Samuel K. Taylor; Sec. 4, Frederick P. Stearns, Edward C. Looker, Jr.; Sec. 5, Alden A. West, Paul G. Nelson; Sec. 6, Americo F. Almeida, Jr., Raymond F. Kelly, Jr.; Sec. 7, Haugan W. Figgis, Edmund C. Naas; Sec. 8, Harry L. Dickey, James A. Garrison.

Sections 9 to 25

Sec. 9, Gregory N. Bruxelles, John F. Smith, Jr.; Sec. 10, Perry Wilder, Jr., James A. Neff; Sec. 11, Kenneth W. Nelson, Alfred R. Bjercke; Sec. 12, Charles C. Gillette, Theodore G. Loomis; Sec. 13, George A. Ingham, William E. Norman; Sec. 14, David L. Glenn, Paul Talalay; Sec. 15, William W. Gavin, James Woodburn, Jr.; Sec. 16, James R. Eberly, Roger M. Freeman, Jr.

Sec. 17, Hugh W. Crawford, Jr., Chester L. Woodworth; Sec. 18, Richard P.

Hook Captain For Day's Game As Squad Opens First Season

After an absence of approximately forty years from intercollegiate football competition, M.I.T. will send a team onto the gridiron to battle Hyannis State Teacher's College tomorrow afternoon at 2:30 P.M. on the Barnstable High School field.

Big Mike Hook, 200-lb. tackle, who has been named captain for this game by Coach Sergeant George C. Hunt, will lead a squad of twenty-nine men into Hyannis to battle the Teachers. Latest statistics available on the Beavers indicate that Sergeant Hunt will start a line averaging close to 180-lb. with the backs tipping the scales at a 165-lb. average.

Ticket Sales Booming

Student-body enthusiasm for Technology's newly-formed Junior-Senior team is evidenced by the interest already shown in the volume of ticket sales at the Institute and the hasty formation of a group of cheer-leaders. Coach Hunt remarked upon this show of spirit and pointed out that a lot of credit is due the team themselves. "All the boys are out there because of their love for the game," he maintained, "since they are awarded nothing in the way of letters or numerals at the close of the season."

"Win or lose we're still going to play football," announced the coach

(Continued on Page 3)

Glee Club To Sing On Field Day Eve

**Chaperones Announced
For Dance Include
Pres. and Mrs. Compton**

Sixty members of Technology's Glee Club will sing during intermission at the Field Day Dance on November 1, Charles A. Wales, Jr., Chairman of the Dance Committee, announced last evening.

At the same time, he announced the names of the chaperones, President and Mrs. Karl T. Compton, Mr. and Mrs. Horace S. Ford, Mr. and Mrs. Delbert L. Rhind, Dean and Mrs. Thomas P. Pitre, Dean Harold E. Lobdell, Mr. and Mrs. Harold C. Weber, and Mr. and Mrs. Walter G. Whitman.

Colonel and Mrs. Clarence T. Marsh, Major and Mrs. Thomas J. Johnson, Mr. and Mrs. Floyd E. Armstrong, Mr. Avery A. Ashdown, Mr. and Mrs. Ralph T. Jope, Mr. and Mrs. Leicester F. Hamilton, and Mr. Walter C. Wood will also be present.

Two hundred fifty options have already been sold. Sales stop next Tuesday, and ticket redemptions begin on Monday, October 28. Table reservations are to be made at the time the options are redeemed.

Orders Taken Next Week For 1941 Technique

Options for the 1941 Technique will be on sale in the Main Lobby of Building 10 from 9 A.M. to 5 P.M. on Monday to Wednesday, October 21, 22, and 23. The options are priced at \$4.00, payable in cash or bursar's pledge cards. This is the last time that they will be on sale at this price. The price will be increased later in the year.

REGISTRATION RESULTS

Last Wednesday almost all men in the country who had completed their twenty-first year and had not completed their thirty-fifth, including some 1,000 Technology men, registered for training in the armed forces of the nation.

What does this action really signify? What is behind this enrolling of sixteen million men for possible military service?

It is, primarily, a good example of a democracy, American style, in action. This, first of all, because it is a spontaneous reaction to threatened peril. Democracy today is pressed hard; hence our men are called to be readied to meet the threat. In the second place, it is the genuine democratic method of organizing our people for the need which the Constitution's authors envisaged when they wrote into the Bill of Rights the right of a citizen to bear arms.

Apart from this long range meaning of the registration act as a whole, there exists its meaning for the individuals whom it directly involved. What significance do the registrant's actions on Wednesday hold for him?

One of his first thoughts must concern the darkness in which he now finds himself. Beyond the few simple questions which he answered at the registration desk and the fact that in a short time he may be required to receive military training, he knows nothing. Maybe his life will continue in its normal course. Maybe Wednesday's *tete-a-tete* is the first step down the giddy slope that leads to fascism. Maybe it is the initial chapter in the book of the American way which will give a second birth and a new significance to "life, liberty, and the pursuit of happiness."

What, indeed, about the future? Consciously or unconsciously, universal military training can lead to militarism. The word lead is used advisedly. Universal military training is not itself militarism which is a definite, individual philosophy of outlook; it is a people's spirit, instilled in them at birth. And a spirit or a philosophy can not be

created by a legal act. But because military problems now are closer than ever before to Americans, because soldiers will fill more homes, this spirit can readily become entrenched in the American intellect.

On the other hand, since, as it was pointed out before, universal military training has grown out of democratic processes, it can propagate a new cognizance of the responsibilities of citizenship in a democracy, as well as of its privileges. Our determination that we are training to fight for our democracy, if it needs fighting for, can become a protection and extension of democracy at home. This evolution happened in the Revolutionary War. It did not happen in the last World War. We can choose for ourselves what will happen this time.

Whatever the result, today we are being tumbled along before a tempest. The realization that we can in some measure determine our course is a spiritual uplift which will become no small factor in the eventual effect of universal military training.

THE AXIS CANDIDATE

Making a campaign issue out of speculations as to whether Hitler would prefer Mr. Roosevelt or Mr. Willkie for the next President of the United States is absurd from any viewpoint. The German dictator's supposed preferences, whichever way they run, are of no possible value to an American campaign. The people of the United States are better fitted than Hitler to decide what is best for their country.

Stupid and irrelevant as the Nazi choice for an American president may be in itself, the political cat-calling over this "issue" is even more childish.

Mr. Henry Wallace and New York's Governor Lehman started the ball rolling when they decided, and publicly announced, that Hitler would like nothing better than to see Mr. Roosevelt defeated. Several other political observers leaped to the attack, declaiming that Hitler is infinitely more afraid of Willkie than of Roosevelt.

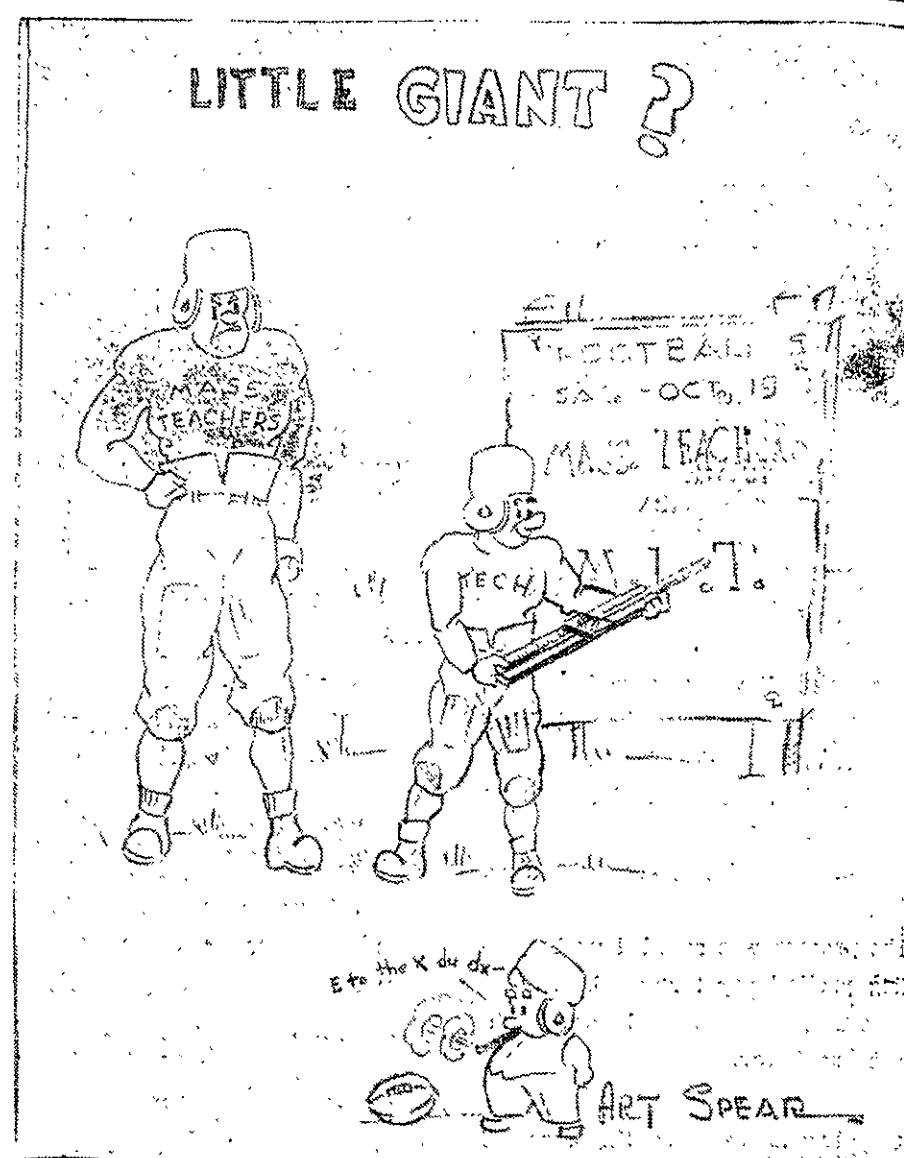

The President himself kept quiet about the thing. But recently he, too, succumbed to the temptation to wave this snappy bit of Hitler hokum under the American people's collective noses. He came up at a press conference with a *New York Times* dispatch from Rome with these lines emphasized, "the Axis is primarily interested in keeping her (the United States) out of war . . . moreover, the Axis is out to beat President Roosevelt, not as a measure of interference in American internal policies, but because of the President's foreign policy . . ."

Now, surely we don't know what the Axis wants. It is doubtful if any newspaperman knows. But if it does want Mr. Roosevelt defeated, revealing such an intent as this would certainly not be the way to do it. It would be bad, suicidal politics. Mr. Roosevelt surely is of this opinion or he wouldn't have emphasized that dispatch, and Mr. Roosevelt is the shrewdest politician in the world.

The crowning ludicrousness of the whole business is Mr. Bruce Barton's offer to bet Mr. Wallace \$1,000 that Hitler would like to see Mr. Roosevelt re-elected, instead of Mr. Willkie. Offering an excuse for his proposal, Republican Mr. Barton says he is simply answering an unfair line of attack started by Democrats Wallace and Lehman. It would be much better, however, if both parties would drop this nonsensical "issue".

Appeals for votes by either side on the grounds that Hitler desires the opposing candidate inflicts a serious wrong on the accused. It distorts motives and warps the voting judgment of great masses of American citizens. Who're running for President anyway, Wendell and Frankie—or Hit and Muss?

"WIN OR LOSE—"

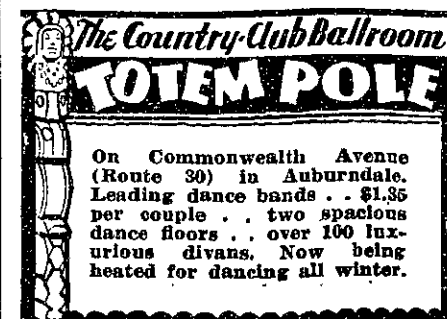

"The Tech Freshman's Lament"

From out of the ranks there has at last appeared a song eulogizing that plague of Tech freshmen from time immemorial, the Friday quiz. It should be adopted by all frosh as their theme song. They should learn it whether they have to or not. Even upper classmen can learn from its lessons. The song was composed by Charles H. Lawrence, '42, while hard at work at the summer surveying camp.

THE TECH FRESHMAN'S LAMENT

(Tune: Battle Hymn of the Republic)
On Friday morn at nine o'clock
You find you're in a seat
With a problem down in front of you
That's anything but neat.
Oh, there're wheels and blocks and
pulls and torques
Enough to make you weep,
And time is marching on!
Chorus:
Find the moment of inertia!
What's the force you need to urge
her?
Grab your slide rule up and push her.
Now we know why Tech is Hell.
Now perhaps you mowed the first one
down
As easy as could be,
But the next is rather difficult.
As you can plainly see.
There's a differential set-up
That says $m dv/dt$,
And time still marches on!
Chorus:
Find the first acceleration!
Then perform that integration.
Don't flunk out before vacation.
Now we know why Tech is Hell.
Oh, the grade you got on Friday's quiz
Substantiates your fears,
So you go and drown your sorrows in
A few of Jackie's beers.
Oh, Tech will soon be minus sev'ral
Budding engineers,
And science marches on!
Chorus:
No more cutting 10-250!
Use your bugger factor thrifty.
Best forget that Wellesley nifty.
Now we know why Tech is Hell.

Trinity College To Be Next Foe For Bootmen

Pre-Game Calculations Favor Injury Weakened Tech Soccer Squad

Slightly bruised and with two of its first team stars liable to rest on the bench because of injuries, the Varsity soccer club will invade Hartford, Connecticut, tomorrow to take on Trinity College at 2:00 P.M. Pre-game dope favors Tech for the first time in two years to garner a victory.

Back in the driver's seat after his recent illness, Coach Malcolm Goldie claims that his team has improved tremendously. He has no information as to the probable strength of the Trinity booters since they are appearing on the Tech schedule for the first time. However Coach Goldie seemed to be optimistic about his team.

Loven and Fernandez Injured

Loven, who played so spectacularly against Brown, has a bruised thigh and, although listed as a probable starter, may not be in action during a good part of the game. Fernandez was also injured in the Brown contest and Coach Goldie thinks that he should not be allowed to play. Fernandez is making the trip, sprained ankle and all, and undoubtedly will be able to get in and see some action. Kirman, last week's point scorer, will start at inside right with two more stars in Johnson and Captain Herzog protecting the goal.

The Varsity looked good in their scrimmage with the Frosh yesterday. Coach Goldie stated however, that there would be a squad shakeup in the near future regardless of the good play of his men. He wished it made known that some of his players were not practicing even one night a week assuming that they were indispensable. Recent sessions have revealed that some fine players are ready to step into first string positions at the expense of the slackers.

Frosh Play Next Saturday

The frosh club plays its first game next weekend and all freshmen who have signed to play are requested to come out for practise immediately. This holds also for those freshmen wishing to substitute soccer for P.T.

Summers Releases Squash Line-up

Two Seasoned Veterans Fill Berths On Squad; Four J. V. Men Promoted

With the first week of varsity squash practice a matter of history, announcement of the probable lineup for the 1940-41 season was made last night by Coach Jack Summers.

The team probably will be built around a nucleus of two men from last season's team, captain Phil Freeman, and Chester Corney, supported by four of the ex-J.V. team members, namely, Jack Sheetz, Al Oszey, Louis Slouse, and Bob Meier.

J. V.'s Well Filled

Besides these veterans, six of last year's sophomore team are out for the J.V. team and ten veteran frosh are out for the sophomore squad. Thirty attended the rally held last Wednesday and these men together with those who have turned out to practice with Jack Summers to date, lead the mentor to believe that the season quota of seventy-five will be filled with ease.

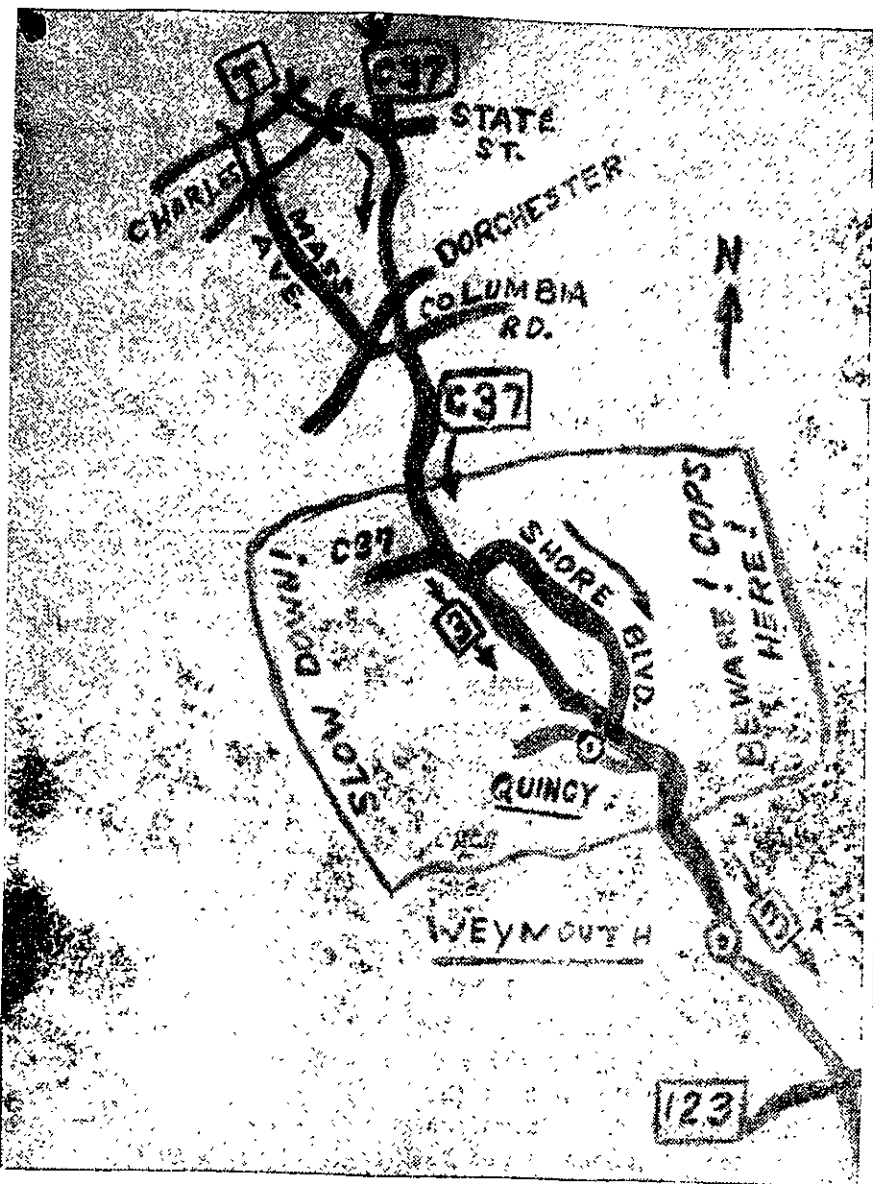

Swimming Coach Calls Frosh "Luckiest Ever"

Claiming that "this year's freshmen are the luckiest that ever came to the Institute" from the point of view of swimming, frosh aquatic coach Gordon Smith, in an interview last night, addressed an appeal to freshmen to turn out for the sport.

Thus far forty men have signified their intention of trying out for the team but only twenty men have been turning out with any regularity for the preliminary training held before the season starts.

The team will have a stiff schedule and needs many men. Those who intend to substitute swimming for P.T. are reminded to sign up for the sport before October 23.

THE ROAD TO HYANNIS

Swim Coach Hopes To Break Records

Large Turnout Brings Prediction Of Good Season For Mermen

With more men out for the varsity swimming team than ever before in the history of the school, Coach John Jarosch predicted more victories than in past years for the squad this season.

Many good men including a number of last year's frosh and varsity stars are out for the sport again this year, and mentor Jarosch is hoping to break several M. I. T. records.

Freestyle Strong

Denhardt, last year's 50-yd. dash star, Tiedeman, frosh sprinter last season, Bimson, Sommers, Nat Sage, and Jack McDonough will form the nucleus of the freestylers. Bamford and Foley from the '43 squad, and Garrett and Alterkruse, last year's varsity freestylers will backstroke this year.

MacLeod and Loveland, both veteran members of the squad will lead the breaststrokes, while Jerome and Sexton, from last season's varsity, Reebie and Karstrom, from the frosh squad last year and Captain Dave Howard, holder of the New England Intercollegiate championship will form a strong threat in the diving events.

Golf Candidates Hear Season Plans

The candidates for the M.I.T. golf team heard Christopher S. Peek, '42, speak concerning plans for the coming year at their first meeting, which was held Tuesday, October 15, in room 5-104.

Plans were announced for a tournament which is to be held Saturday, October 19, at the Brookline Country Club. Those who intend to take part will meet in front of building 7 at 1:30 P.M. A cup will be awarded to the winner, and a medal to the freshman winner provided more than five freshmen participate.

Changes Announced in Beaver Key Schedule

Harry E. Knox, '41, in charge of the program for the Beaver Key intramural football tournament, has announced several changes in the schedule of games to be played this weekend. The following games, which had been planned for earlier times, will be held on Sunday afternoon at 2:30:

Chi Phi vs. Theta Delta Chi.
Delta Upsilon vs. Lambda Chi Alpha.
Phi Gamma Delta vs. Sigma Alpha Epsilon.

Record Turnout At Hockey Rally

Practice For Teams Begins Next Week With Training Planned For Hangar Gym

A record-breaking turnout of freshmen heard Coach George Owen speak concerning the prospects for the season at the hockey rally held yesterday in Tyler Lounge.

If the freshmen continue to show as much interest in hockey there will be a freshman team this year, according to Frederick S. Leiserson, '42, manager. Any freshman who can skate has a chance.

Practice Begins Next Week

Coach Owen gave instructions about keeping in condition, and also spoke of the value of strategy in college hockey. William Smith, '41, captain, announced that shooting practice will begin in the hangar gym next week.

Tug-of-War Teams Show Improvement In Spirit

With spirit among tug of war teams at last breaking forth, Coaches Adelson and Greenes are busy preparing their men for the crucial pull on Field Day.

The Sophomore team this year is using a different system from that used by its predecessors, while the freshman mentor is not letting out any secrets at all as to how his team will pull. Both teams have a fairly good turnout at present and after much haranguing by their coaches are slowly being licked into shape.

Beaver Gridsters Ready For Initial Contest Tomorrow

(Continued from Page 1)

when queried about the Beaver eleven's chances in the coming battle. "We know nothing about Hyannis," the mentor continued, "but weight for weight we ought to be able to win."

Team in Condition

Some question as to the ability of a Technology student to get into good physical condition has arisen in many quarters but the sergeant is confident that his charges, and especially the starting eleven, are in excellent condition. Mike Hook, captain for the day, left no doubt as to his opinion of the Tech chances. "I think we'll be able to handle them," he declared. "The boys will be out there fighting."

This will be the Beaver's first game of the season, but the Hyannis eleven will have the experience gained in two games already played. Offensively the team is well balanced with no outstanding star. Charley Dodson will call the plays from his 3-back position, with Bill Hooper in the fullback or 4-back slot. Bob Fabacher and Johnny Arnold complete the list of starting backs. The punting will be handled by Johnny Arnold, Bob Bunn, or Joe Bow-

October 23rd Deadline For P. T. Substitutions

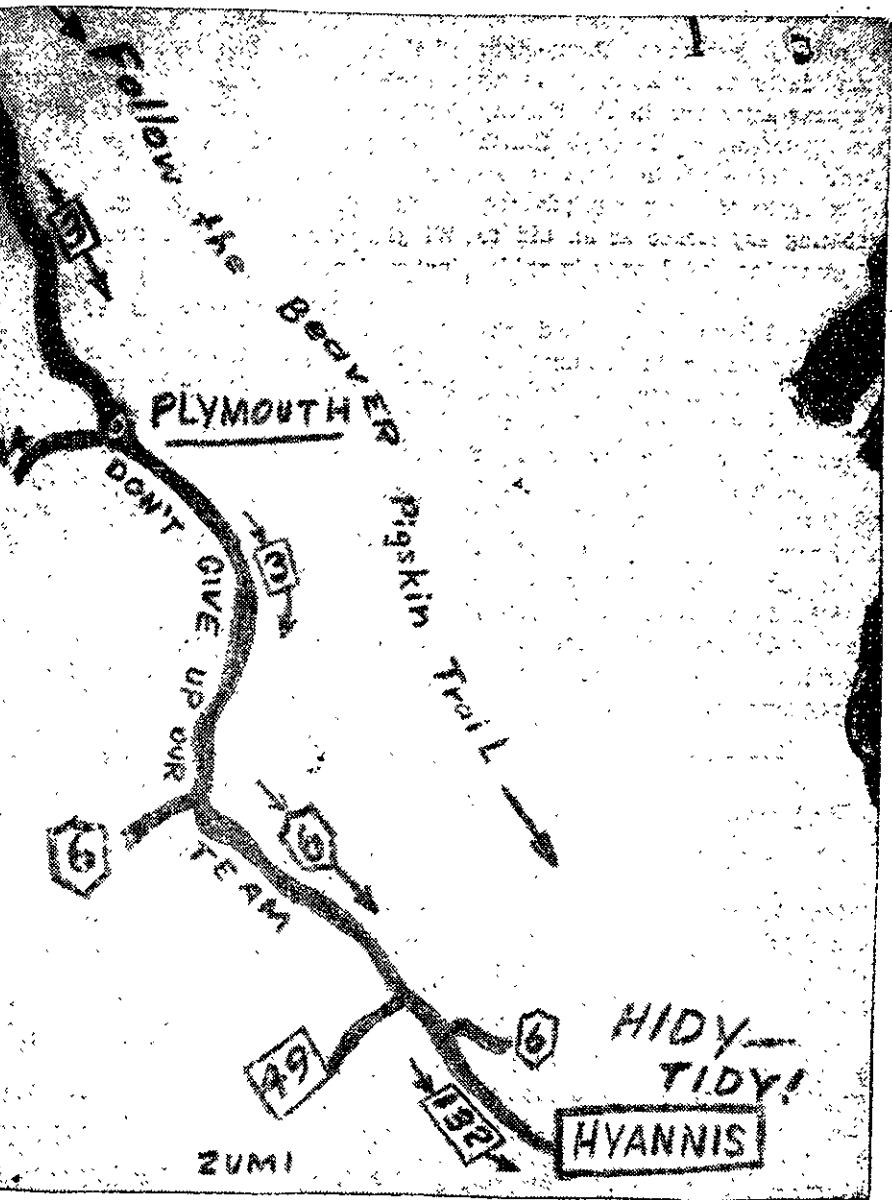

All freshmen interested in substituting a sport for physical training should sign up for that sport in Room 335, Walker Memorial, with Mr. Henry McCarthy, Director of Physical Training before the deadline, at 12 noon on Wednesday, October 23.

man, depending on who is in the game at the time.

Linemen Strong

Anchoring the line will be the Beaver's heavyweight tackles, Mike Hook and Stan Van Greenby, while the flankmen will be Joe Bowman and either Pete Sibley or Bob Evans. In the center of the forward wall will be Earle Foot, and at the guards, "Tex" Given and Milt McGuire.

This afternoon Coach Hunt plans to run through light signal drills to keep the boys in trim. Then tomorrow at 10:15 A.M. the coach wishes all members of the squad making the trip to be at Briggs Field House.

Twins

(Continued from Page 1)

thought and action as well. Neither one ever says "I" or "me"; it is always "we" or "us". Both of the twins have a habit of glancing at each other after saying anything to see if the other is of the same opinion.

Voo Doo Aspirants

The only mistake the boys have made thus far in their quest for higher learning, is the sad error of contemplating going to work for Voo Doo in a sketching sort of way. But

both protested vigorously that they had as yet not made up their minds—so there is still hope for the wandering two.

The new pool made quite an impression on the brothers principally because of its design. The two are both planning to become architects and will return to St. Louis to go into business with their father. In the way of sports, swimming and squash sounded most interesting to both of them. Sailing also has its attraction and the twins are registered in the fall shore school.

Debating Society Opens Against Harvard Sunday

The Debating Society will open its season this Sunday evening when a Technology team composed of Paul M. Erlandson, '41, and Ward I. Haas, '43, meets a Harvard team before the Young People's group at the Old South Church in Boston. The November presidential election will be the subject of the discussion.

The society welcomed thirty-eight new candidates at its annual smoker last Tuesday afternoon in the Faculty Lounge. Professors Theodore Smith and John B. Rae of the English department, spoke to the group, advocating debating experience as an aid to logical reasoning and fluency in public speaking.

President Erlandson outlined the activities planned for the coming year, among which are thirty Varsity and ten freshman debates. Besides the scheduled debates there are to be a freshman debating contest, a foreign affairs discussion group, and several Open Forums for the entire student body. In describing last year's activities, Erlandson stated that society members had traveled more than 10,000 miles while participating in over forty debates.

Dramashop

'42, Coxey by Sherman P. Sackheim, '43, and Brathwaite by Lewis G. Firth, Jr., '43, George E. Power, '41, is the director of this production.

Burton S. Eddy, '42, has been in charge of the set design of the series of productions, and has been assisted by the construction manager, Paul I. Pressel, '43. Production is under the management of Robert L. Mitchell Jr., '43. Light and sound, and the construction of a new large switchboard has been under the supervision of Samuel A. Scharff, '43. Henry Paul, '43, is director of ticket sales and publicity.

Peace Federation

son M. Compton, Jr., '41, vice-president; Joseph E. Dietzgen, '41, treasurer; and John J. Quinn, '42, and John M. LeBolt, '42, members of the executive committee.

Former President Kunreuther resigned because, as a German alien, he did not think that he was qualified to head the peace organization. Compton, Quinn, and LeBolt withdrew because they did not believe in the objects of the Federation strongly enough to take an active part in its program.

C. A. A. Training Begins This Week

Seventy students from Technology are enrolled in the primary and advanced flight training courses being offered this year by the Civilian Aeronautics Authority. This week saw the opening of the basic courses, and the advanced training program will get under way soon.

Because of the increase in the number of those taking training, twenty of these in the basic course are getting their training at Norwood Airport in Canton. The other thirty in the basic course and the twenty in the advanced course are learning to fly at the East Boston Airport. E. W. Wiggins Airways is furnishing the instruction.

Training Already Started

One instructor is assigned for each ten students. Both the ground school training and flight training have started, and will continue throughout the season. Thirty-five hours of flight training are included in the course. The cost to the student is \$25, the remainder being paid by the United States Government.

The planes being used in the basic training course are J-3-60 Taylor Cubs, while those which the advanced students will use are known as the YPT advanced military type trainer. This is the second time that an advanced course has been offered to Technology men who have already completed the basic training. A similar course was given during the summer term.

Nine In Running For Walker Comm.

Final Choice Of Six Sophomores Planned For Late Next Week

The competition for Sophomore positions on the Walker Memorial Committee has narrowed down to nine men after a week of intensive work by candidates and observers of their work by the Committee. Those still in the running are: Waldo F. Davis, Jr., Douglas G. Fenton, Robert W. Maxwell, Eugene W. Place, Albert B. Root, III, Herbert C. Sanderson, Jr., George A. Slifer, Jr., Walter G. Sutton, Jr., and Richard D. Wilson.

During the coming week these men are to do the regular work assigned to them as well as write two special reports. One of these reports will contain the candidate's ideas on improvement of efficiency in the committee and any ideas on general improvements around the Institute that come under the scope of the Walker Memorial Committee.

There will also be a series of interviews in which the Senior board of the committee will have an opportunity to meet the candidates individually and get their views on the work of the committee. After these interviews final selection of six men is to be made.

Professor Davis To Speak Sunday

Professor Horace B. Davis, Professor of Economics at Simmons College, will address the Technology chapter of the American Student Union at 7:15 P.M. Sunday, October 20 in Litchfield Lounge. Professor Davis will speak on the subject "America's Stake in Latin America."

This is the first of a series of regular Sunday evening discussion groups sponsored by the Technology chapter in cooperation with other New England student chapters. Professors of many New England colleges will lead these discussion groups, which are open to all students interested in current events.

Medical Aptitude Tests To Be Given November 8

All students who plan to enter a medical school in September, 1941, must take the Medical Aptitude Tests which will be held only once during the current year, viz., November 8, 1940, in Room 3-305, 3:30 to 5:30 P.M.

All desiring to take these tests should notify Dean Prescott, Room 3-207 before October 20. Announcement of the tests has been posted on the Official Bulletin Board near the Cashier's Office, and on the main bulletin board in the Department of Biology and Public Health.

Electrical Detective finds wanted pair

Telephone men know this piece of apparatus as the 108-A Amplifier. It is an "exploring amplifier," developed by Bell System engineers to identify pairs of wires in telephone cables—some of which contain as many as 4242 wires.

The cable man explores this mass of wires with the pencil-like probe. A tone sounding in the headphone tells him when he has found the right pair.

Ingenuity—special equipment—attention to details—play an important part in making your telephone service the clearest and fastest in the world.

Why not report "All's well" to the folks at home? Rates to most points are lowest any night after 7 P.M. and all day Sunday.

K & E SLIDE RULES

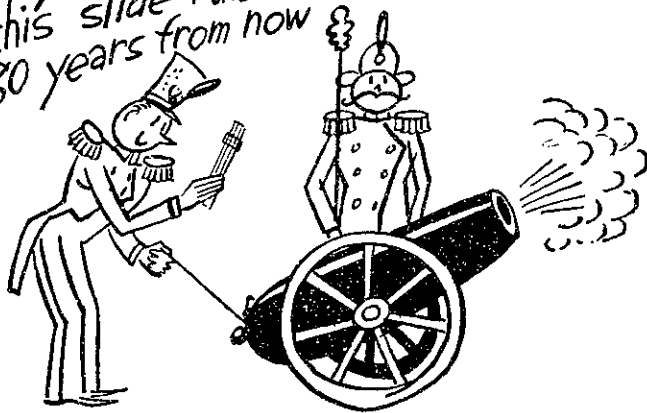

To help you decide which size

"HOW TO CHOOSE A SLIDE RULE"
by DON HEROLD

TECHNOLOGY STORE

DIVIDEND TO MEMBERS

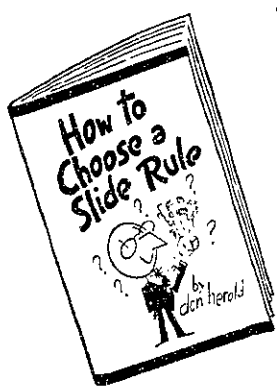

They'll still use this slide rule 80 years from now

CAN YOU BE HAPPY WITH A "PRE-CIVIL WAR" SLIDE RULE?... READ

"How to Choose a Slide Rule"

by DON HEROLD

IT'S HUMOROUS...

IT'S HELPFUL...

IT'S FREE

A lot of water has flown over the dam since Lieutenant Armand Mannheim invented his Slide Rule in 1853. In this new book Don Herold explains all the new wrinkles and tells you in simple terms just what kind of Slide Rule will make life best for you. The book is handsomely illustrated with drawings by the master himself. It takes the mystery out of Slide Rules forever. "How to Choose a Slide Rule" is free as free—but only one copy to a customer. See your campus K & E dealer at once.
